

ON TUESDAY, DEC 13, 2016, 12:00 PM HEALTHY BUILDINGS=HEALTHY & HAPPY ENVIRONMENTS: CONTROLLING BUILDING ENVELOPE AIR LEAKAGE

JOIN US AT THE CHARLES H WRIGHT MUSEUM

This lunch and learn on **Controlling Building Envelope Air Leakage**, or ***“How Big is Your Hole?”***. The presentation covers how to apply and use air barriers in industrial, commercial and multi dwelling buildings. We will also discuss ***“Healthy Buildings = Healthy & Happy Environments”*** and the impact of building air leakage on a building's sustainable durability, occupant comfort, health, productivity and overall energy efficiency.

Presenter Steven Tratt, Canam Building Envelope Specialists/Tremco will introduce a new iPad App that collects the required data to assess a building's existing air barrier continuity. The App predicts energy saving measures and provides a customize comprehensive air barrier report.

Order of Meeting: Located at the Multipurpose Room

12:00 – 12:30 p.m. – Registration, Lunch and Networking
12:30 – 1:40 p.m. – Presentation and Q & A
1:40 – 2:00 p.m. – Review Sample Reports & New Mobile App

Attendees will receive a certificate **1 AIA/ CES Learning Unit/ HSW.**

Please pre-register by clicking Eventbrite link:

Why Attend this FREE Lunch & Learn?

*Identify issues and
symptoms that
contribute to air
leakage*

*Understand the
components of the
“building envelope” and
operational efficiencies*

*Consider corrective
measures and cost
justification strategies*

*Learn the relationship
between the mechanical
system and the building
envelope*
